SUMMARY

BNSP-certified Data Scientist and Information Systems undergraduate at Telkom University Jakarta (GPA: 3.69/4.00), with experience in data governance, Python pipelines, Power Automate, and Power BI.

SKILLS

Data & Machine Learning : Python, SQL, Pandas, NumPy, Scikit-learn, CRISP-DM, Streamlit
Data Governance & Automation : SharePoint, metadata management, naming audit, Power Automate
Business Intelligence : Power BI, Power Query
Development & Tools : JavaScript, PHP, HTML/CSS, Next.js, Laravel, Node.js, REST API, MySQL, Supabase, Redis, Git/GitHub, Vercel, Microsoft Entra

EXPERIENCE

Data & Analytics Intern - PT Telkom Indonesia
August 2026 - October 2026

Chapter Data Science & AI / AIX | Digital Product Division | South Jakarta, Indonesia

- Built a Python metadata pipeline for 26,713 SharePoint entries, classifying document type, sensitivity, and status.
- Developed Power Automate inventory flows with pagination and CSV export; diagnosed Power Query refresh limitations.
- Built a Talent Dashboard portal prototype using Next.js, Microsoft Entra authentication, and Power BI embedding.

PROJECTS

AIX Data Governance & Metadata Automation
August - October 2026

Internship Project | Python | SharePoint | Power Automate

- Audited a 26,713-entry baseline: identified 22,684 naming violations (84.9%); produced classified Excel/CSV catalogs and SharePoint inventory flows.

Daun Merah - Forex Intelligence PWA
May 2026 - Present

Personal Project | Vanilla JS | Node.js | Redis | Vercel

- Built a serverless forex PWA combining macroeconomic data, technical indicators, and news from FRED, CFTC, Yahoo Finance, and ECB.
- Implemented Redis caching, distributed locking, and multiple LLM providers with fallback and timeout handling.

Machine Learning-Based Customer Segmentation
April 2026

Certification Project | Python | Scikit-learn | Streamlit

- Built a CRISP-DM customer segmentation model with preprocessing, EDA, GridSearchCV, and a Streamlit prediction app.
- Presented the methodology as an invited speaker at Telkom University's Data Science Bukan Cuma Coding webinar (June 2026).

Quality Control System Design
September 2024 - June 2025

Academic Research | PT Estima Reka Sakti | System Analysis | UI Design

- Mapped construction quality-control processes and bottlenecks through field research; designed monitoring use cases, relational ERD, and UI wireframes.

CERTIFICATIONS

Data Scientist Certification, LSP Data / BNSP April 2026
IBM Data Science Professional Certificate, Coursera March 2026

ORGANIZATION

Christian Student Fellowship, Telkom University Jakarta
May 2025

- Chaired a three-day Easter retreat with 56 team members and an IDR 36 million budget; coordinated schedules, divisions, and risk management.

EDUCATION

Telkom University Jakarta
2023 - Present

Bachelor of Information Systems | GPA: 3.69 / 4.00
